**Oggetto: Reach compliance statement for connectors**

Referring to the Reach norm for what concern the assembling and the commercialization of connectors, above mentioned articles don't contain any chemical substance that can be released during normal use or any foretell use.

In both cases production and commercialization of above articles, for how much regards us.

An obligation of recording should exist as per art.7 parag.2 reg. Reach from 1<sup>st</sup> of june 2011.

Today we advise all our supplier in order to optain the information regarding their policy about the Reach regulamentation.

In case of need we will forward you those information.

Thanks for your collaboration we are at your disposition for any needs.

Best regards
