

Mrs Astrid Burschel - 9065 26.03. 2008
Mr. Wilhelm Wiegmann - 219

Dear Sir or Madam,

According to your request we would like to inform you, that our products supplied to your company are not affected by the new European Union Regulation on Chemicals (REACH).

Consignees of the new REACH-Regulation are first of all manufacturers or importers of substances (monomer) fabricating or importing more than one ton a year. These companies need to register all materials and contents of their substances produced. However, the "REACH" regulation will not apply for users (like WAGO) just utilizing these substances in the first place.

However, we like to confirm that we are in touch with our raw material suppliers to support them accordingly in registration matters.

For further particulars to this subject we stay at your disposal.

Best regards from Minden

WAGO Kontakttechnik GmbH & Co. KG
